Jojoba & Natural Derivatives

**JOJOBA BUTTERCREME™**

**INCI NAME:** Butyrospermum Parkii (Shea) Butter (and) Jojoba Alcohol (and) Potassium Jojobate (and) Simmondsia Chinensis (Jojoba) Butter (and) Propanediol

Jojoba Buttercreme™ is a cream base that provides the emolliency of jojoba and shea to formulations. Jojoba Buttercreme™ acts as an auxiliary emulsifier and natural neutralizing agent. Jojoba Buttercreme™ adds a creamy, soft, smooth texture to skin and hair care formulations.

**JOJOBA ILLUMINATE**

**INCI NAME:** Jojoba Alcohol (and) Potassium Jojobate (and) Propanediol

Jojoba Illuminate is saponified jojoba oil that provides conditioning and moisturizing properties to skin and hair care products. Jojoba Illuminate can be used as a natural neutralizing agent instead of NaOH or KOH for skin care products.

**ISO JOJOBA BUTTER 35 AND ISO JOJOBA BUTTER 50**

**INCI NAME:** Simmondsia Chinensis (Jojoba) Butter

Iso Jojoba Butter 35 and Iso Jojoba Butter 50 are isomerized, partially hydrogenated wax esters that are derived entirely from jojoba oil. The Iso Jojoba Butters are designed to provide an elegant emolliency, cushion and a luxurious feel to skin care and color cosmetic formulations.

**JOJOBA WAX FLAKES**

**INCI NAME:** Hydrogenated Jojoba Oil

Jojoba Wax Flakes are a fully hydrogenated jojoba oil that imparts excellent film forming properties and improves stick strength. Ideal for use in skin care, color cosmetics and other anhydrous stick products.

**JOJOBA PRO HP**

**INCI NAME:** Hydrolyzed Jojoba Protein

Jojoba Pro HP is a composition of essential amino acids derived from the jojoba seed which conditions and moisturizes hair providing body, shine and smoothness. In skin care, Jojoba Pro HP improves the quality and functionality of skin through natural moisture retention.

**JOJOBA GLAZE LV AND JOJOBA GLAZE HV**

**INCI NAME:** Simmondsia Chinensis (Jojoba) Seed Oil (and) Ethylene/Propylene/Styrene Copolymer (and) Butylene/Ethylene/Styrene Copolymer

Jojoba Glaze LV and Jojoba Glaze HV are anhydrous transparent, colorless viscous gels available in two viscosity ranges. Jojoba Glaze products provide excellent emolliency and substantivity to skin care and color cosmetic formulations. Clear, high gloss formulations with particle suspension properties can be produced when these glazes are added.

**DW JOJOBA COLORLESS**

**INCI NAME:** Simmondsia Chinensis (Jojoba) Seed Oil

DW Jojoba Colorless is a high purity filtered, pasteurized and bleached liquid wax ester, mechanically extracted from jojoba seeds. DW Jojoba Colorless is chemically similar to human sebum and can be used in skin and hair care products to help replace lost lipids by providing both emolliency and conditioning properties.

**DW JOJOBA GOLDEN**

**INCI NAME:** Simmondsia Chinensis (Jojoba) Seed Oil

DW Jojoba Golden is a filtered and pasteurized liquid wax ester, mechanically extracted from jojoba seeds. DW Jojoba Golden has a clear, golden color, with a typical slightly nutty aroma. DW Jojoba Golden can be used in all personal care applications to help replace lost lipids providing emolliency and conditioning properties to skin and hair.
